- Boone Elementary School, PANTHERS letter fence stencil (DC, Precision Wall Tech)
- EV parking spaces (MD, ATI LLC)
- Mural - The Arts Plaza at The Parks at Walter Reed (DC, Urban Atlantic)

DIFFERENTIATORS

Our VP of Operations was honored to have been personally entrusted by the U.S. Secret Service to lay down the blue line that ensured the safety of President Barack Obama and First Lady Michelle Obama as they walked down Pennsylvania Avenue during the 2008 Inauguration.

Having striped virtually every street and intersection in the District, our team's two decades of experience in thermoplastic pavement marking is recognized by DOT inspectors throughout the region for its superior abilities in both layout and execution.

We are a one-of-a-kind company in the pavement marking sector because we not only install precisely executed lines but also are known for taking on complex design projects, such as turning a parking lot into 4 uniquely designed kickball fields.
